
EERE Project Management Center Stakeholder Update -- July
2006

This newsletter is intended to keep stakeholders of the U.S. Department of Energy's Project Management Center (PMC) informed of emerging changes during this period of transition to a consolidated organization incorporating the former regional offices.

A PDF version of this newsletter is available at:
<<http://www.eere.energy.gov/regions/consolidation.html>>

Featured articles:

- Contact information for expanded PMC, including former regional office staff
- Update on August "States Meeting" at Golden;
- Update on how the transition to new program assignments for staff will be handled;
- Update on new staff assignments at EERE/Headquarters.

Contact Information for the PMC, including former RO Staff

All former regional office employees have now relocated to their new work assignments at either Golden or the National Energy Technology Laboratory (NETL).

Employees from the Western, Central and Midwestern offices have moved to Golden. Employees from the Southeastern, Mid-Atlantic and Northeastern offices have moved to NETL.

If you need assistance locating staff during this transitional period, please do not hesitate to contact either Golden or the National Energy Technology Laboratory at:

Golden Field Office
Mail Stop 1501
1617 Cole Boulevard
Golden, CO 80401
Phone: 303-275-4700
E-mail format for any Golden employee is:
firstname.lastname@go.doe.gov

National Energy Technology Laboratory
626 Cochrans Mill Road
P.O. Box 10940
Pittsburgh, PA 15236-0940
Phone: 412-386-4681

National Energy Technology Laboratory
3610 Collins Ferry Road
P.O. Box 880
Morgantown, WV 26507-0880
Phone: 304-285-4469
E-mail format for any NETL employee is:
firstname.lastname@netl.doe.gov

For detailed contact information, including phone numbers
and initial program assignments, visit:

(We apologize for this additional step, but the plain-text
formatting limitations of this e-newsletter require it.)

Project Management Center-- States Meeting, August 1-3

The first meeting of EERE's Project Management Center (PMC)
and the 30 states and territories of the former Western,
Central and Midwestern regions will be held on August 1-3
at Golden. State representatives will include the Directors
and staff from the State Energy Offices and the State
Weatherization Program offices.

The first day will focus on introductions of new people,
facilitating the connection between the PMC and the states,
and building stronger working partnerships for the future.

Day two will be split into two tracks: State Energy Program
(SEP), and Weatherization Assistance Program (WAP).

Day three will be an optional tour of the National
Renewable Energy Laboratory that ends at noon. It will
include a stop at the new, high-tech Science and Technology
Facility.

Updated program assignments for former RO staff

As reported in the last issue of the Stakeholder Update, the new program responsibilities within Golden and NETL will be as follows;

Golden

- Hydrogen, fuel cells and infrastructure
- Biomass
- Solar Technologies
- Wind and Hydropower
- Geothermal Technologies
- Industrial Technologies
- Native American Energy
- Federal Energy Management Program (FEMP)
- Green Energy Parks Transportation Program

NETL

- FreedomCAR and Vehicle Technologies, including Clean Cities
- Buildings, including Rebuild America, ENERGY STAR, Building Energy Codes, and Building America
- Weatherization Assistance and State Energy Programs

The major exceptions will be SEP and WAP. While NETL will continue to have program responsibility, project management will be split between the two organizations.

To help ease the transition to this new structure, project managers will continue to keep an eye on programs for which they were previously responsible, even as they take up their new responsibilities in the PMC. Feel free to contact them about any transitional questions that might arise.

And remember, detailed contact information for former RO staff and other PMC staff can be found at:

<<http://www.eere.energy.gov/regions/consolidation.html>>

DOE/EERE Headquarters Staff Changes

- Richard Moorer: Associate Under Secretary, DOE;
- David Rodgers: Acting Deputy Assistant Secretary, Technology Development (continuing as Acting Program Manager, Weatherization & Intergovernmental);
- Steven Chalk: Acting Program Manager, Solar Technologies;

- Joann Milliken: Acting Program Manager, Hydrogen, Fuel Cells & Infrastructure;
- Jacques Beaudry-Losique: Acting Program Manager, Building Technologies (continuing, Program Manager, Industrial Technologies);
- John Mizroch: Senior Policy Advisor to Assistant Secretary.

=====

The EERE Regional Office Stakeholder Update is both confidential and dedicated, in that the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy will not disclose names or e-mail addresses to anyone nor send you e-mails unrelated to this newsletter.

If you have not already subscribed to the newsletter, you may by emailing: rostakeholders@go.doe.gov.
